

Welcome to Sickingenstadt Landstuhl, once ancient cultivated land and located on the most important trade routes, today middle centre and approved resort.

Multifaceted land forms, like the location at the bottom of the Sickinger Höhe, the immediate proximity to the western palatinate bottomland or the edge region to the Pfälzer Wald, provide the visitors of our city with impressive insights and views.

Today we welcome you to an interesting tour through our lovely historic city and we take you to a time journey on the footsteps of the legendary chevalier Franz von Sickingen: the last chevalier.

Dive into the historic past of our city and experience an exciting discovery tour to the various sights of the Sickingenstadt Landstuhl.

On your private city tour you will follow the traces of our chevalier, embedded in the pavement, to the single marked stations, beginning at the information board (location: Kaiserstraße 37, AOK-Gebäude).

The length of the circular tour amounts approximately 2 km.

Please remember: On a short 60m long part of the tour, along the busy main street, the width of the sidewalk is not suitable for wheelchairs and buggies.

We hope you enjoy your tour!
